

Culprit ...Pest Control Operation

- It started w/ a person contacting our office asking us to observe a pesticide product for sale. He informed us he's going to use round-up herbicide. I informed them it's a general use product and knowing your own backyard doesn't need approval.
- I explain the steps involved with larger scale invasive species projects.
- I ask where and when are you planning on doing the treatment.
- The reply was "looking on securing a contract at TCUAD Office & School Bldg."
